

Gradient

HELSINKI SERIES 1.5

When we designed and built our first Gradient loudspeaker 1.0, we had no idea how strong and everlasting symbol for our company it would eventually become. An iconic product that has stood against time all these years.

It was just 25 years ago when we decided to take our own way and not to follow anyone else. Not to fall industry conventions and evident solutions.

The idea of making a perfect loudspeaker was then our noble quest and it led us to the path we are still travelling.

One stubborn step at a time.

GRADIENT 1.1

GRADIENT 1.3

Born from long craftsmanship tradition
– GRADIENT HELSINKI, OILED WALNUT

Gradient Helsinki is another step towards our goal of unique perfection. A loudspeaker concept born from our twisted way of thinking differently.

To ensure the highest possible handmade quality, we produce only limited number of handcrafted loudspeakers every year.

Environmentally friendly components for each pair are individually selected and approved with very high standards of quality.

Every loudspeaker goes through our careful testing before it is approved to deliver unique experiences for our devoted friends. Before it is proudly shipped from our factory. To the ones to share our vision with us.

For years to come.

MODEL VARIANTS

OUR VISION

Trends and fashion passes, but design remains. Technologies are getting old, innovations useless. Quality born out from craftsmanship continues to live. And express. To deliver experiences, close to perfection.

In a busy modern world, filled with noise, silence is an unique virtue. Almost forgotten luxury.

Listening carefully – GRADIENT HELSINKI,
BLACK WITH WHITE MODULES

Gradient is devoted for silence. For filling it without breaking it.

Gradient equals to musical transparency, each of our products sounds like nothing else in the market.

Gradients are designed without boundaries. We devote our days, weeks, months and years for designs, that seamlessly meet technical perfection. Designs that are timeless.

For unique people who understand.

For those still, beautiful moments surrounded by music.

We devote our time for filling your silence without breaking it.

We carry our strong heritage with pride.

And we listen.
